

LOCAL SEARCH

Patients don't search 'healthcare marketing'.

They search for a specialty plus a place.

01

Specialty + neighborhood

'dermatologist upper east side' beats a citywide fight with a hospital brand.

02

Specialty + insurance

**'orthopedic surgeon covered by my insurance'
is a patient with a card in hand.**

03

Specialty + 'accepting new patients'

Answer it honestly on your profile and your page.

Check your own practice today

- 1 Is your Google profile claimed?
- 2 Do your hours match reality?
- 3 Is there one page per service and city?
